[FOUR SEASONS @ MAPLETON HOA sanctioned email group:7517]  
POOL UPDATE

To Four Seasons <fourseasonsmapletonhoa@googlegroups.com>

Good morning,

The reason for closing the indoor pool and spa was because the county inspector found that there was a chemical imbalance. Unfortunately the indoor pool and spa will remain closed until the conditions are satisfactory and safe for swimmers.

We are also still experiencing problems with the HVAC system. The pool enclosure is still not maintaining the optimum temperature. We are doing all that we can to rectify the situation. Asteroid has come out twice to try to fix the HVAC. We have asked them to return as the system is still not functioning properly.

We are sorry for the inconvenience this causes, and we thank you for your understanding.

Sincerely,

Lena Spinneweber  
for  
The Board of Trustees
